Description:
I have to say that I know that, next school year, I won't have time enough to coordinate the project. So, I'm looking for partners who wants to be founders. I can do contact with them to the building of the project but I can't make the job alone. I hope we could make collaborative actions to promote well-being activities and to demonstrate the influence of screens on the concentration.
Please write me if you're interested and serious in your eTwinning projects.
