

Publicar a túa idea de proxecto

Nas Redes profesionais (**Networking**) podes publicar facilmente a túa idea de proxecto e que sexan outros membros eTwinning quen soliciten unirse ó teu proxecto.

Para crear un proxecto na plataforma necesítanse **dous socios**. Estes serán os **FUNDADORES** do proxecto. Os socios fundadores son os dous únicos membros do proxecto que non se poden borrar.

Partner finding é un punto de encontro onde buscar propostas de proxectos que outros eTwinners publicaron previamente.

Ademais da túa idea de **proxecto eTwinning**, podes publicar ideas de proxectos Erasmus+ e cursos.

Add posting to your organisation

Depending on the organisation(s) you are member of, you can create one or more postings. If you cannot create any postings then please check your organisation memberships.

Posting type *

Select posting type

Organisation *

Select organisation

The screenshot shows a form with two main sections. The first section is 'Posting type *' with a dropdown menu containing the text 'Select posting type'. The second section is 'Organisation *' with a dropdown menu containing the text 'Select organisation'. Below the 'Organisation' dropdown, two blurred options are visible, each with a red arrow pointing to it from the right.

O seguinte paso é seleccionar o tipo de proxecto que queres crear.

Só os proxectos europeos (cuxos fundadores sexan de dous países diferentes) **poderán solicitar o Selo de Calidade Nacional**. Os **proxectos nacionais** (cuxos fundadores sexan do mesmo país) **non poderán solicitar o Selo de Calidade Nacional**, nin sequera se nunha fase posterior engaden socios doutro país.

Title *

EcoStudents in EcoSystems

Summary *

The main focus of this project is to bring our pupils closer to nature from different perspectives: the enhancement and knowledge of the Earth's different ecosystems.

234 characters

Description *

B I U S | Normal | Styles | ✂ | 📄 | 📁 | 📄 | Source

☰ ☰ ☰ ☰ | 🔗 🗨️ | ☰ ☰ | ” 🗣️

The project intends to make students aware of the ecosystem of the area where they live and to discover what our partners' ecosystem is like: which similarities and differences do they have. Students will share information about their ecosystems through electronic presentations, photographs, or short videos made by them.

Students will discover and learn that ecosystems are formed by different living things (plants, animals...) and that they need a balance to work. They will also find out what happens if this balance is broken.

The project intends to develop and improve students' skills in understanding the topics covered in learning Natural Sciences, speaking and writing in a Foreign Language (English) and in the use of information and communication technologies (Informatics / ICT). Also other educational areas such as Arts, Music, History and Geography may be part of the project.

606 characters

É importante engadir unha imaxe do proxecto, aínda que esta non ten por que ser o logotipo definitivo.

Good morning,

while hoping this message finds you well, would you kindly provide some info about the timeline and the tasks as part of this project. I am available to start in February with students who are aged 10.

If you prefer to communicate via email you may do so on [\[redacted\]](#)

Kind regards and looking forward to hearing from you.

Unha vez elixido o outro socio fundador, tan só quedaría fundar o proxecto.
